What's a **ROAD-E-O?**

The SWANA Northwest Regional Road-E-O is a great opportunity for the “front line” employees in the solid waste management field—truck drivers, heavy equipment operators and mechanics—to obtain education through training and networking. The Road-E-O also gives these front-line employees a chance to display their on-the-job skills in a competitive arena.

EVENT HIGHLIGHTS

- **Opening Reception**
- **Truck Driving Competition**
- **Mechanics Competition**
- **Landfill Equipment Competition**
- **Kids Competition**
- **1st, 2nd, and 3rd place awards in each competition event**
- **Prize Raffles**
- **Vendor Displays**
- **Awards Banquet**
- **Operator & Driver Training**

Many of the SWANA Chapters hold an annual local Road-E-O. Competitors from both the public and private sectors are welcome to participate. There are three types of competition events—landfill equipment, trucks, and equipment/truck mechanics.

The 2023 Road-E-O will feature three truck events: roll-off, front loader, and automated side loader. It will also include the mechanics event and four landfill equipment events: the landfill compactor, the articulated front-end loader, hydraulic excavator and the dozer.

All competitors complete a written test, CDL pre-trip inspection, and either a driving obstacle course or troubleshooting exercise.

Competition winners are determined by the highest combined score for the day's categories. The winners are announced on Saturday at the awards banquet.

The first and second-place winners of each event will be eligible to advance to the annual SWANA International Road-E-O, to be held in Colorado October 14th.

As with all SWANA events, there is a high level of professionalism. The Road-E-O is one of the only events strictly for the front-line employees. The friendly rivalry, networking and educational components make the Road-E-O a winning combination!
